Sent: February 23, 2017 5:16 PM
To: Wilson-Raybould, Jody - M.P.
Subject: mercy for our children

Bill Blair, MP

Here is a quoat from BB saying he is concered for our young..yet to this day continuse to throw our children in jails with organized criminales....("Talk about a gateway to crime) Burdening their chance of any number of carreers. in short making second class citizens of children. With legislation so close this TACTIC of last grab before it ends is destroying young lives as we speak.Supporting unjust issues seems to be a thing However I see no support in the Media or public over what is happening to our Canadian children in these cases. most of these kids are finished school on the way to carreers . All paid for by education tax dollares. And BB is willing to waist the millions spent on educating these kid in an instant by slapping criminal records on them this is a WASTE of tax dollares at the highest levels.Total cost of ruining our childrens life starts from first contact right till release and the posble probation cost add to that the money we invested in our childrens education and the cost to tax payers is crazy big. Time to let common sense prevale. Or ask BB for a total cost on an average aresst conviction and prison for marajuana users and then add the cost the tax payers paid to educate that person and the social \$ cost attached to a criminale record they will now carry. .These numbers should be available so go ahead ask him and see were the money for prohability goes and lasting effects on Our children. ----- Here is BB quote .Quotes

"I look forward to meeting with Canadians from across the country to hear their perspectives on regulating access to legal cannabis. We know that the current system of prohibition through the criminal justice system is not** protecting the health and safety of Canadians, especially our young people**. These meetings, along with the work of the Task Force on Cannabis Legalization and Regulation and the online consultations, will help inform the development of legislation to be introduced in Parliament this spring."

Hi,

I saw your Feb 16 release announcing the tour Bill Blair and Minister Wilson-Raybould will be going on. Is it possible to know the tour dates and when they will be visiting Quebec in particular ? I'd also like to know who can register to attend the consultation and what the procedure is.

Regards,

You sent out a press release last week regarding Bill Blair wanting to speak to Canadians about how to move forward with cannabis legalization and regulation. Are any of those meetings going to be open to the public and, if so, how will people know where and when they will be?
Thanks.

No, the online consultation is done and so is the Task Force's work. PS Blair is going around on a tour, but we (public servants) are not involved.

The questions seems to come from a Constituent to an MP. I don't think it would be for us to answer. It is one thing to provide content when a MP makes an announcement on behalf of our Minister, but that isn't the case here. It is an MP answering her constituent.

Here are our lines regarding the TF Report and general lines that could help.

Holding Lines for Ministers Regarding the Receipt of the Task Force Report:

- We are pleased to receive the report from the Task Force and we thank them for their hard work.
- We recognize that legalizing and regulating cannabis is a complex issue. That is why we appointed the Task Force in June to provide us with the best advice on how to keep cannabis out of the hands of youth and profits out of the hands of criminals.
- The Task Force closely examined a wide range of issues related to cannabis legalization, and we will carefully consider their advice as the Government works to develop evidence-informed legislation to be introduced in Parliament in the spring of 2017.
- Although the work of the Task Force has concluded, there will be additional opportunities for Canadians to provide their input as we move forward with developing legislation.
- We look forward to working closely and collaboratively with the provinces and territories and with our partners and stakeholders.
- We would like to remind Canadians that until the new legislation comes into force, the current laws remain in effect.

Key Messages on why the Government is Legalizing Cannabis:

- Canada's current system of controlling cannabis through the criminal justice system does not adequately protect the health and safety of Canadians, especially youth.
- It allows illicit markets to thrive, with the proceeds going to criminals or organized crime. The cannabis sold in the illicit market is unregulated, untested and may be unsafe.
- The Government of Canada has committed to legalizing and strictly regulating access to cannabis to keep it out of the hands of youth and profits out of the hands of criminals.
- We recognize that legalizing and strictly regulating access to cannabis is a complex issue and that is why we appointed the Task Force in June to consult widely and present its best advice.
- The delivery of the Task Force report is an important step in helping the Government fulfil its commitment to legalize and strictly regulate access to marijuana and to make evidence-informed policy decisions.

- The Government of Canada will introduce legislation in the spring of 2017. The new legislation would come into force after being passed by Parliament and once regulations have been developed.

Good afternoon Pierre,

This email was forwarded to us by the Office of the Hon. Chrystia Freeland. It is not clear from the email if they wish us to answer the constituent or if we are asked to provide a response for them to send out. This is the standard response I have in my file for marijuana enquiries such as this one:

As you may be aware, the Government of Canada has created a Task Force to engage Canadians on key questions related to the legalization, regulation and restriction of access to marijuana. We suggest you provide your input by completing the online consultation.

Please advise how you wish to proceed with this email?

Thank you.

Guy

Subject: Legalizing Marijuana - age limit

s.19(1)

Chrystia,

As one of your constituents I wanted to make myself heard on a topic that is becoming increasingly important for our children 14-25 years of age.

Legalizing marijuana is one of many initiatives that prove Canada is a progressive country – it is the right thing to do.

However, with the overwhelming evidence that pot can have serious (negative) impact on brain development for adolescents and young adults right up to age 25, it seems setting the legal age for buying pot at 18 is a big mistake. Even the Canadian Medical Association's recommended age of 21 would be better, but why not set it at 25?

This is less about the real ability of the "system" (whatever the retail system turns out to be) to prevent sales to the 18-24 year olds. That will happen and it will not be "preventable". It is more an opportunity to have the legal framework consistent with the medical realities – pot when smoked excessively by 18-25 year olds can seriously harm brain development. Shouldn't we as a society send that message at the same time as we recognize marijuana as a fine recreational drug for ADULTS?

Thank you for your consideration on this matter.

Subject: RE: Legalizing Marijuana - age limit

Thank you for sending your email to the Department of Justice Canada's General Enquiries regarding legalizing marijuana.

As you may be aware, the following three ministers have been tasked with this mandate:

- Minister of Justice and Attorney General of Canada,
- Minister of Health, and
- Minister of Public Safety and Emergency Preparedness.

You may wish to bring your constituent's concerns to the attention of these ministers. Contact information to the Minister of Justice and Attorney General of Canada is available on our website.

Here are our lines regarding the Task Force Report and general lines that could help you respond to your constituent:

Holding Lines for Ministers Regarding the Receipt of the Task Force Report:

- *We are pleased to receive the report from the Task Force and we thank them for their hard work.*
- *We recognize that legalizing and regulating cannabis is a complex issue. That is why we appointed the Task Force in June to provide us with the best advice on how to keep cannabis out of the hands of youth and profits out of the hands of criminals.*
